FACULTY POSITION

Applications are invited for a tenure-track position in the Department of Geodesy and Geomatics Engineering, University of New Brunswick, Fredericton campus, commencing 1 January 2011 or earlier if possible, at the Assistant Professor level.

Successful applicants will possess a combination of demonstrated achievement and potential in terms of research and teaching achievements in geographic information systems/GI Science and, to a lesser extent, in another geomatics field.

Applicants will have an earned Ph.D. degree in a relevant discipline. Industry experience is an advantage but not essential, and an applicant should be eligible for registration as a Professional Engineer in the Province of New Brunswick. The successful candidate will be expected to act individually and as part of a team in providing academic and research leadership to UNB, to the profession and to the international community. As part of our GIS leadership at UNB, the successful candidate will deliver two introductory GIS courses (one at the graduate level and one at the undergraduate level) in the Faculty of Forestry and Environmental Management, in addition to courses within the Department.

The Department of Geodesy and Geomatics Engineering comprises 8 faculty members, approximately 100 undergraduate students, and approximately 45 graduate students from over 20 countries. State-of-the-art geomatics data collection, computing and communication hardware and software facilities are available both within the Department and across campus through collaborative research initiatives. The University of New Brunswick is a co-educational institution with over 12,000 students on two campuses. With a population of just over 50,000, the City of Fredericton offers faculty members and their families a unique combination of lifestyle, facilities, and cultural energy. Further information on both the Department and the City may be found at gge.unb.ca and www.city.fredericton.nb.ca/ respectively.

All qualified candidates are encouraged to apply, however, Canadians and permanent residents will be given priority. Applicants should indicate current citizenship status. The University of New Brunswick is committed to the principle of employment equity. This position is subject to final budgetary approval.

A detailed curriculum vitae, including a statement of teaching and research interests, a list of courses previously taught, a complete list of publications, and the names and full contact details of three referees, should be sent prior to 15 June 2010 (although later applications may be considered) to:
